APPLICATIONS

1. Companies and students will have registration forms to register.
2. Admin will fill the date fixtures.
3. Students will have the access to read the company table and date fixtures so that students can apply to any company by checking company table and date of interview which gets entered into interview table.
4. Companies will login using their company_id and password given during company registration for placements and can check the applications of registered students for that company.
5. Companies sends the list of selected students to admin.
6. Admin will fill the offers table.
7. History table will have the list of branch-wise analysis of previous years placed students.
